Diet and Exercise Course For Women to Reduce In Weight and Figure

In Twenty-Four Daily Lessons Miss Furlong Presents to Her Readers the System of Diet and Exercise by Which She Recently Reduced the Weight of a 210-lb. Woman 23 lbs. in Four Weeks.

TO-DAY'S EXERCISES, ILLUSTRATED.
LESSON NO. 21—The Liver Squeeze.
 Back numbers of these lessons may be obtained by sending a 2-cent stamp to Miss Furlong for each lesson desired. Readers are invited to correspond with Miss Furlong, who will reply through the columns of The Evening World. She does not print correspondents' full names.

By Pauline Furlong.
 The difficult liver squeeze exercise is illustrated to-day, and I am hoping to most of my readers will be able to master this movement without undue strain.

This is the last exercise which will be shown for the reduction of the waist line, high stomach and lower part of the body, as we shall finish the course with some for the fat arms and shoulder blades, neck and double chin.

TO-DAY'S EXERCISE.
 Take your position with your hands on your hips, feet together. Bend the body at the waist line and touch the floor in front with the tips of the fingers, keeping the knees rigid meanwhile. Return to the original standing position, relax for a few seconds and then bend and touch the floor at the right side in the same manner. Return to the upright starting position, relax and bend to the left side. Repeat the movement about six times, if you are practiced. This exercise, as its name suggests, stimulates the sluggish liver to action and tones up the abdominal organs generally.

TO-DAY'S MENU.
 Luncheon—Grapefruit, boiled or poached eggs, gluten bread, and tea or coffee without sugar or cream.
 Dinner—Roast veal with dressing made from gluten bread, boiled onions, baked eggplant, celery and apple salad on lettuce, with boiled dressing.

HEALTH AND REDUCTION AIDS.
 Since some readers write and tell me that they are following the diet to the letter and still do not lose weight, I shall explain that question in to-day's lesson. First of all, I want to say that it is not possible to follow this obesity diet as it should be followed and not lose weight. To begin with, this would absolutely be a physical impossibility. Something is surely wrong, and those who do not see any improvement in their figures after nearly four weeks' treatment are eating some kinds of fattening foods, even if they are not aware of the fact. Remember that you must eliminate starches, sugar and fats in all forms, and those who are inclined to be stout will not lose weight if ever so small a quantity of the forbidden foods is taken.

Then, too, there is another point to be remembered, and that is that some persons will take off weight without any particular exertion or self denial, while others will work unceasingly and get so little results. This may be discouraging, but it should not cause you to lose faith and give up trying to bring the figure to normal, healthy proportions. This condition, of course, depends on the individual's age, general health, occupation and environment, so that no hard and fast rule can be set down for all and bring the same results.

Just as in the case of illness one person's recuperative powers differ greatly from another's, so from obesity or emaciation, both of which states are really forms of disease, some recover more quickly than others. The time in which it will take you to acquire a beautiful shapely figure depends almost entirely on the cause of your present unhealthy condition, and the length of time you have been in such condition.

TO BLEACH HAIR—GLADYS T.
 asks: "Will you please tell me how to bleach my hair?"
 You are very foolish to bleach your hair, as this causes it to become dry, brittle and dead looking in time. If you must do so, however, apply pure peroxide of hydrogen to small strands of the hair with a tooth brush wrapped with absorbent cotton. Roll each strand up into a tiny knot on the top for several hours to dry, as this prevents the bleach from dripping and making the ends of the hair lighter than the top. Shampoo the hair before starting the bleaching to remove all traces of dirt and grease, as no hair coloring will "take" on hair which has any trace of oil.

ABOUT CHEESE—MRS. LULU H.
 asks: "Please state in the paper what kinds of cheese I may eat, as I am very fond of it, and I understand that the pure cream cheese is forbidden in the obesity diet."
 All kinds of cheese are fattening.

McCall Out of Minnesota Primaries.
 BOSTON, Feb. 2.—Gov. McCall telegraphed the Secretary of State of Minnesota to-day asking that his name be withdrawn as a candidate in the Republican Presidential primaries of that State. This step was taken when the Governor learned that nomination papers had been taken out in Minnesota in his behalf, and that the time for withdrawals expired on Feb. 2.

\$250,000 IS RAISED IN WEEK FOR FUND TO STIMULATE AVIATION

Aeroplane Fund for National Defense Will Reach \$390,000—\$50,000 From New York.

A quarter of a million dollars was raised in the United States for the National Aeroplane Fund during the week ending Jan. 31, according to an announcement of the Aeroplane Club of America. The fund is to be used in encouraging aviation, training militia officers in the science of flying, and supplying aeroplanes to the National Guard and other organizations for national defense. With other contributions a total of almost \$390,000 is expected to be available for the work.

Much of the money raised in the last week was pledged some time ago, but the offer of Emerson MacMillin, the banker, to give \$100 to the fund for every \$900 raised by the Aero Club, expired on Jan. 31, and it was to raise as much as possible before the expiration of the offer that the large amount of money was taken in during the last week. About \$5,000 had been previously collected, and it is expected Mr. MacMillin will give about \$38,000 to the fund.

Illinois led the States with a contribution of \$100,000 guaranteed by the syndicate of wealthy men headed by W. H. Cochrane, Horace W. Clark,

Frank W. Maloney, President of the State National Bank of Madison and Willard A. White. Over \$50,000 was raised in New York State, there being one gift of \$10,000, the donor of which stipulated that his name be withheld from publication.

OH, THAT MAINE WHISKEY!

Fugitive From Justice Surrenders and Tells About It.

The free flow of whiskey in Lewiston, Me.—a city "dry" for many years—is proclaimed by Albert E. Woodward of Somersworth, N. H., to have made him a fugitive from justice. He walked into the Detective Bureau at Police Headquarters last night and said to Lieut. Fogarty: "My conscience is bothering me and I want to give up. I'm an electrician. I worked for Brackett, Shaw & Lunt of Somersworth. I was sent to Lewiston to make collections and took in \$310. I fell in with bad company. After drinking in several places I found myself robbed of \$250. I feared to face my employers, so I came to New York. My conscience has troubled me ever since and I want to pay for my crime."

Woodward was locked up and word was sent to the Somersworth police.

THIS IS GOLDEN TALK.

Seattle and Gotham in Touch by Phone, but It Costs.

The extension of the transcontinental telephone service to Seattle, Wash., was celebrated last night in the Pacific Coast city by a gathering at the Cort Theatre there. The home of Paul West, author, at No. 317 West End Avenue, Manhattan, was called.

The 15 minutes' talk that followed cost Joseph Blithen of the Seattle Times \$106.50. Mr. West was an old friend, and Mr. Blithen selected the West home for the first call. Mr. and Mrs. West and Mr. and Mrs. William A. Johnston aided Mr. Blithen in using up the \$106.50. Mrs. West and

Mrs. Johnson would have liked to talk much longer. Because of mountain storms the call had to be put through Spokane. The longest previous calls between the coasts have been between New York and San Francisco.
